Health Promotion and Prevention (HPP) Division Overview
1. Prevention Programs
Prevention Programs Include:

- Breast and Cervical Cancer Control Navigation Program (BCCCNCP)
- Substance Use Disorder Services & Programs
Breast and Cervical Cancer Control Navigation Program Overview

- BCCCNCP provides preventative screenings, cancer treatment services and/or healthcare navigation support to women ages 21 and older within 250% of poverty level and without sufficient healthcare coverage.

- The program also offers transportation assistance incentive gift cards for enrolled women completing preventative screenings.
The summer 2019 BCCCNPNP promo is being extended through December 2019!

Substance Use Disorder (SUD) Services & Programs Overview

SUD Services & Programs coordinated by ICHD Health Promotion & Prevention Division include:

1) SUD outreach & awareness
2) Opioid overdose prevention
3) Tobacco use reduction programs
SUD Outreach & Awareness
• Presentations and trainings for healthcare providers and other groups on understanding SUD as a chronic disease and best practices for working with people suffering from SUD

Opioid Overdose Prevention
• Opioid Overdose Prevention: Narcan training and free nasal kits for individuals and groups/agencies

• Ingham Opioid Abuse Prevention Initiative: an action-oriented, community collaborative established to develop and implement strategies that prevent and reduce opioid addiction in Ingham County
Tobacco Use Reduction Programs

• Support policy, system and environmental changes to create smoke free environments

• Coordinate tobacco prevention and cessation outreach strategies

• Integrate tobacco cessation protocols into Ingham Community Health Center clinical care and ICHD Public Health services

• Provide tobacco treatment counseling to People Living with HIV

2. Pathways to Care
Pathways to Care Overview

- Pathways to Care is a home visiting and jail-visiting program for adults with chronic conditions that connects people to healthcare, primary healthcare and other services and supports.

- Participants meet with a Community Health Worker (CHW) to identify the health and social services they need.

- CHWs help clients enroll in healthcare coverage and connect to doctors, dentists and/or other providers.

- CHWs help clients navigate other community resources and services.
Pathways to Care Eligibility & Referrals

- Medicaid eligible adults
- 2 or more chronic health conditions
- Living in Ingham County or the City of Lansing
