

*"This class was so amazing. My children AND staff are so much more positive and happy with each other. We will continue to make sure to notice acts of kindness and continue focusing on the positive with each other. It really makes a difference!"* On Teaching Children Kindness

*Thank you for the opportunity to take one of your Independent Study Courses. I thought it would be difficult, but the format is very user friendly and I learned A TON!"*

*"I really enjoyed the activities that I tried with the children and the fact that I was working, but also learning skills at the same time. When I got down on the children's level they seemed to want to connect more. One little girl even reached out and held my hand when I was at her level talking to her. This class has really opened my eyes."* On Making Meaningful Connections with Children
