Topic	Discussion/Summary
Introductions & Background	Welcome, Ground Rules and Introductions- Renold conducted round-robin introductions, reviewed the Meeting Goals, Ground Rules & Shared Agreements.
Agency Updates	<p>Andrea Carlson shared Ingham Community Health Center; New Hope Clinic has a new provider for their Medication Assisted Treatment (MAT) program. They have the capacity to accept new health center patients into their MAT program for Mondays and Tuesday afternoons.</p> <p>Amanda Wallace shared the medical examiner office completed their second quarter (Q2) death data analysis and concluded drug related deaths in Ingham County were higher in Q2 than the in Q1 and are higher now compared to the same time last year. The medical examiner office is taking part in a research grant, where samples are sent to confirm pathology results. This process has identified a new form of fentanyl, <i>Parafluorofentanyl</i>, in overdose fatalities. Amanda is working with MPHI on an overdose fatality review team; the meetings will review causes of overdose fatality and discuss prevention strategies.</p> <p>Tammy Maidlow-Bresnahan mentioned the Health Department has printed color copies of the SUD Resource Guide. If your organization would like copies for clients, please email tmaidlow@ingham.org or rjeanlouis@ingham.org with your request to arrange delivery.</p> <p>Chris Martin announced several old drug cases have been resolved or have come up for trial. Due to the increased prevalence in substance use and overdoses, the prosecutor’s office are more focused on the public health aspects of these incidences and are trying to provide help instead of charging the individuals with criminal offense.</p>
