

About the COVID-19 vaccine trials

Pfizer Vaccine

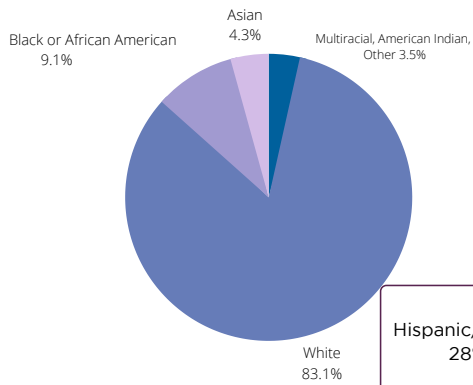

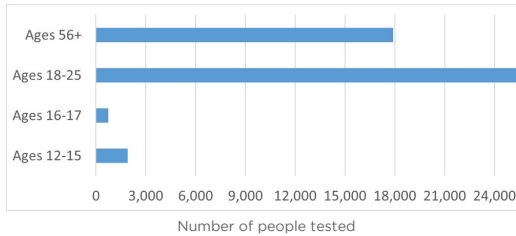

Scientists who developed the vaccine

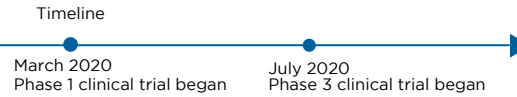

Dr. Ugur Sahin and Dr. Ozlem Tureci

Dr. Ugur Sahin and Dr. Ozlem Tureci established BioNTech in Mainz, Germany

44,000 people tested the vaccine

Moderna Vaccine

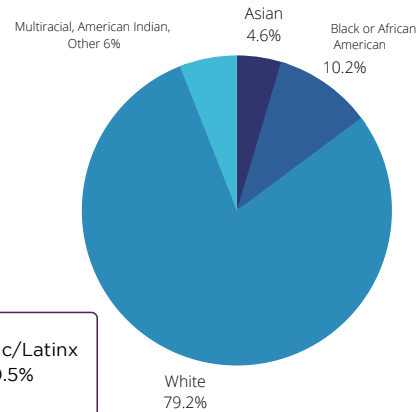

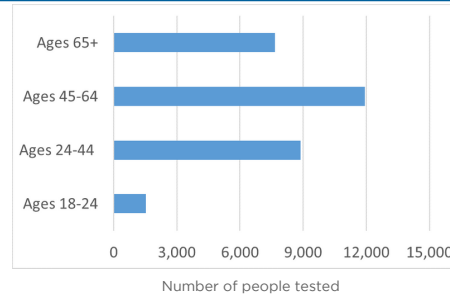

Scientist who developed the vaccine

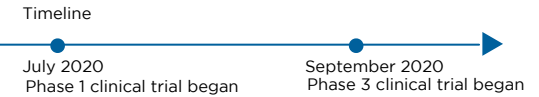

Dr. Kizzmekia Corbett

Dr. Kizzmekia Corbett is a research fellow and lead scientist at the National Institutes of Health

30,000 people tested the vaccine

Johnson & Johnson Vaccine

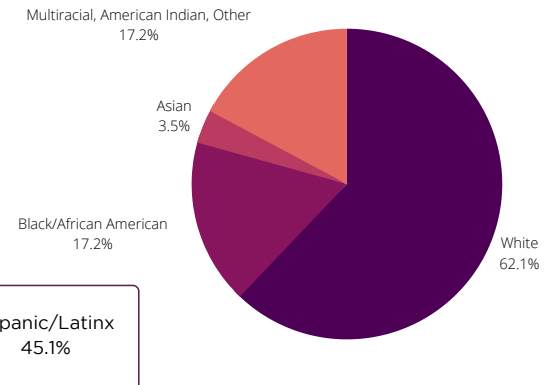

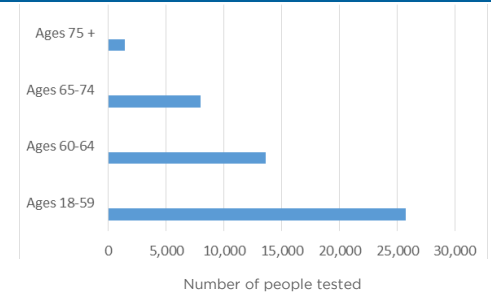

Scientist who developed the vaccine

Dr. Roland Zahn

Roland Zahn, Senior Scientific Director of Preclinical Immunology of Viral Vaccines at the Janssen Pharmaceuticals Companies of Johnson & Johnson

40,000 people tested the vaccine

Similarities in Vaccine Trials

- All vaccines are least 66.3% effective in preventing any COVID-19 infection.
- All vaccines were 100% effective in preventing COVID-19 deaths in vaccine trials.
- All vaccines are placed in the upper arm.
