

## MISSION

### Ingham Community Health Centers

*“Our mission is to attain the highest level of community wellness by empowering people to improve their health and well-being.”*

Ingham Community Health Centers have a longstanding, successful history of providing primary care services to vulnerable populations. Ingham Community Health Centers are a “dual status” health center in that they have both Federally Qualified Health Center (FQHC) and FQHC Look-Alike designations.

Its FQHC is comprised of five health centers: Birch Health Center, Cedar Community Health Center (Child Health, and Women’s Health), Forest Community Health Center, River Oak Community Health Center, and Well Child Community Health Center. Its FQHC Look-Alike includes three health centers: Eastern Health Center, Sexton Health Center, and Willow Health Center.

Services include primary care, dental, chronic disease management, on-site lab, infectious disease, HIV/STI, immunizations, family planning, prenatal, behavioral health, nutrition counseling, health education, and risk reduction.

To address the needs of the target population, Ingham Community Health Centers partner with CEI-Community Mental Health, (Michigan Department of Community Health), Michigan Department of Health and Human Services, Michigan State University, and Sparrow Health Systems.

## VISION STATEMENT

### Ingham Community Health Centers

*“Better Health Begins With You.  
We Can Help You Get There.”*

*Ingham Community Health Centers* is dedicated to provide affordable, high quality, and comprehensive primary care to medically underserved people regardless of their insurance status or ability to pay.

These programs are made possible, in part, with grant support from the U.S. Department of Health and Human Services’ Health Resources and Services Administration and the Michigan Department of Community Health.
